

"IMG tag"

 Tag

- ****: Used to add images to a webpage.
- Attributes:
- **Src**:(source) Path or link to the image file (e.g., "image.jpg").
- **alt**: Text shown if the image doesn't load.
- **width**: Image width (in pixels or %).
- **height**: Image height (only works with fixed values, like pixels).

INPUT

```
<!DOCTYPE html>
<html>
<head>
  <title>Image Example</title>
</head>
<body>
  <h1>Image Tag Example</h1>
  
</body>
</html>
```

OUTPUT

Image Tag Example
