

"Paragraph Alignment"

Align Attribute

- **align="left"**: Aligns text to the left.
- **align="center"**: Centers text.
- **align="right"**: Aligns text to the right.
- **align="justify"**: Justifies the text, spreading it across the width of the paragraph..

INPUT

```
<!DOCTYPE html>
<html>
<head>
  <title>Paragraph Align Example
</title>
</head>
<body>
  <p align="left">This paragraph is
left aligned.</p>
  <p align="center">This paragraph
is center aligned.</p>
  <p align="right">This paragraph
is right aligned.</p>
  <p align="justify">This paragraph
is justified, meaning it is
aligned on both the left and
right margins.</p>
</body>
</html>
```

OUTPUT

This paragraph is left aligned.

This paragraph is center aligned.

This paragraph is right aligned.

This paragraph is justified, meaning it is aligned on both the left and right margins.
